RE: SRF #5602-01 North Shore Drive Project Update

North Shore Drive Project

Over the past week, Milbocker & Sons has all but completed our underground utility work. The only remaining underground work to complete is a handful of storm sewer catch basin leads to the west side of North Shore Drive. These are limited to the south half of our Phase III area (Ashley to Brockway). These remaining storm sewer crossings are expected to be complete by the end of this week. If this holds true, all underground work on our entire North Shore Drive project will be complete.

Concrete sidewalk replacement has also started this past week. This work has been taking place within our Phase II (Dyckman to Brockway) area, and is expected to be on-going the remainder of this week. You may have also noticed that several new trees have been planted recently. The remainder of our tree plantings will take place after our concrete sidewalks and curbs are complete.

Kent Power, Comcast and Frontier Communications have also continued the relocation of their facilities. Once complete, removal of the old existing utility poles will take place.

The schedule for the upcoming week includes road building operations (sand subbase and gravel base) on our Phase III (Brockway to Baseline) section of our roadway. Minor "final grading" of the gravel base in Phase II will also likely occur. Concrete crews may also remain onsite, and potentially be starting curb & gutter as soon as next week.

Other than that, expect to see a continuation of utility relocation work by Kent Power, Comcast and Frontier. Traffic patterns should consistently improve as we head into the homestretch. With that being said, freshly placed concrete sidewalk and curb needs a full 3-4 days of cure time. Any vehicular traffic prior to that will result in broken/damaged concrete. Please stay off the newly placed concrete until the caution tape and flagging has been removed.

Finally, weekly on-site "tailgate talks" continue to take place for anyone with specific project related questions. These meetings take place on Wednesday's at 9:30 a.m. on the sidewalk in front of North Side Memories on Dyckman Avenue.
