Bill

Here is the response, I received from the Steuben County Engineer.  
The Bridge is rated @ 10,000 pounds that is per lane the way I understand it.

Brent

**Subject:** Re: Lane 210

I would advise all contractors to follow the posted weight limits on any and all roads as they are regulatory signs and are posted for the benefit of the traveling public including the contractors.

You don't often get email from [bshull@townofhamilton.org](mailto:bshull@townofhamilton.org). [Learn why this is important](#)

Chip,  
Can you answer the question below for me?

Brent,  
A contractor has asked about the bridge weight limit on Lane 210. Can you check with the County to determine if they contractor can use the bridge for normal loads of 20 Tons or will they have to observe the weight limit?  
Thanks
